

UEFA WOMEN'S CHAMPIONS LEAGUE 2011/12

Qualifying Round Draw Procedure

COMPETITION SYSTEM

Fifty-four clubs will take part in the competition. The 32 clubs in the qualifying round will be drawn into eight groups of four teams. The eight group winners and two best runners-up will join the 22 best-ranked teams in the round of 32.

COEFFICIENT RANKING LIST

For the purposes of the draw, the UEFA administration seeds clubs for the qualifying round in accordance with the coefficient rankings established at the beginning of the season in line with the following principles set by the UEFA Women's Football Committee:

1. A combination of 33% of the value of the respective national association's coefficient for the period from 2006/07 to 2010/11 inclusive and the club's individual performance in the competition during the same period. Each club retains the cumulative number of points obtained during this period.
2. If two or more teams are equal, the team with the highest coefficient for the last season (2010/11) will be ranked higher.
3. If two or more teams are still equal the higher number of participations in the previous five seasons will determine the ranking.
4. If two or more teams are still equal, the goal difference during the last season (2010/11) will be taken into account.
5. If two or more teams are still equal, the goals scored during the last season (2010/11) will be taken into account.

Coefficients have been calculated according to the criteria laid down in Annex I of the competition regulations.
